

5 reasons you should find a plumber before

EMERGENCY STRIKES

A **plumbing emergency** can be extremely stressful for anyone. Not knowing who you can call and waiting to get called back can be a hassle in itself. It's best to choose a plumber so that you know exactly who to call when an emergency strikes.

PEACE OF MIND

Probably the biggest advantage to having an emergency plumber already on speed dial is that it provides you with peace of mind. You don't have to stress out trying to find a **plumber** because you already have one.

DISCOUNTED PRICING

Calling for emergency service can be more expensive than regular service calls. If you don't have a pre-established relationship with certain **plumbing contractors**, they may charge an extra new customer fee on top of their emergency pricing.

ENSURE THE JOB GETS DONE RIGHT

When you're in the middle of a plumbing emergency, it's easy to overlook red flags about a contractor because you couldn't find anybody else. This can lead to a terrible job that may need to be corrected later on. Using a **plumber** you've already dealt with in the past and trust will do a good job ensures that your plumbing problem gets fixed correctly the first time.

GET A QUICK RESPONSE

If your plumbing emergency happens after hours, it can take forever to get callbacks from prospective plumbing contractors. However, if you already have a **plumbing contractor** that you use, they will give you an emergency number. With one call, you can get a quick response and minimize any water damage.

YOU'LL KNOW THEY'RE LICENSED AND INSURED

Even the best plumbers out there can have accidental blunders from time to time. This is why having insurance is a must. When you find a plumber before an emergency strikes, you can ensure that they are fully licensed and insured in the event that something goes awry during your **emergency repair service**.
